

PROPOSAL

Website proposal for the Association for the old Organization

ST10517543

1. Organisation Overview:

- Name: Association for the Old
- AFTO (Association For The Old) was founded in Pietermaritzburg, South Africa, in the 1990s by two friends, Steve and Sam. It began as a small house caring for Steve's grandparents and Sam's grandfather and proceeded to grow into a trusted facility for elderly people. In 2003 the organisation faced financial troubles and was on the brink of closing down, until Tony, whose grandmother had been staying at the facility, decided to invest in and buy a share of the organisation, saving it from shutting down. AFTO has been thriving ever since as a registered non-profit organisation dedicated to giving elderly people the lives they deserve.
- Our mission is to provide elderly members of our community with a safe, warm, and caring home, where they are supported by trained professionals and caring volunteers, and given the opportunity to stay active, social, and connected through community activities.
- Our vision is to be a leading old age home in South Africa, recognised for our commitment to the wellbeing and happiness of every resident, and for building a community where elderly people continue to thrive, connect, and feel at home.
- Our target Audience are people who wish to donate money, volunteers, families looking for elderly care for their loved ones and corporate sponsors

2. Website Goals and Objectives:

- The goal of the website is to increase awareness of AFTO services, recruit volunteers who would like to work with older people on a day to day basis and make it easier for people to find more information about what elderly care is and how they can acquire it.
- Key Performance Indicators we aim for
 - 3500+ monthly visitors on the website
 - 100+ monthly donations
 - At least 20 Volunteers a month

3. Current Website Analysis (if applicable):

- Despite being such an old organization, they do not have a website since they are very old school

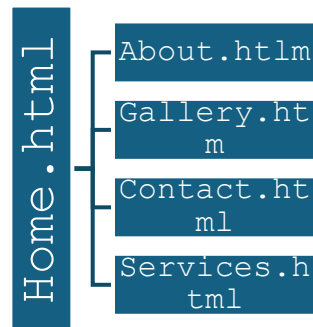

4. Proposed Website Features and Functionality:

The website will have the following main features:

- A Home Page that will be easily navigated, an About Us that will explain what we are and our goals, A list of our Services, then a menu for Volunteer and Contact Us.
- The web site will have the following functions Online Volunteer and donation form and a Contact form

5. Design and User Experience:

- Colour Scheme: Wheat and black
- Typography: A mixture of bold fonts for headings and normal fonts in other places to grab the attention of the person
- Hierarchy chart

- Layout and Design:
The homepage will feature the organisation's logo and a simple navigation menu at the top. A large hero image with the message "Helping Our Elderly Live With Dignity" and a "Donate Now" button will encourage visitors to act. Below this will be an About Us section introducing the organisation. The page will also include a Volunteer section inviting community involvement, Contact Details, and a footer containing copyright information and quick links.
- For user experience consideration the website is easy to navigate, also mobile friendly, fast loading pages, large fonts and a simple donation and application process
- Wire frame
 - Home
 - About Us
 - Services
 - Gallery
 - Contact Us

6. Technical Requirements:

Domain will be: www.aftofoundation.co.za

Hosted on Linux web hosting

programming languages required will be CSS, JavaScript and HTML

7. Timeline and Milestones:

Week 1 : Research about the Organization

Week 2 : Propose the project

Week 3 : We start developing the Home,

Week 4&5 : We Test the website and submit it

8. Budget:

Budget

Development = R25000/year

Domain = R100/year

Web hosting = R1000/year

Maintenance = R15000/year
